EDUCATION

• MCA. Master of Computer Application	Swami Ramanand Thirth Marathwada University	CGPA: 7.0	August 2024 – Present
• BCA. Bachelor of Computer Application	Sant Gadge Baba Amravati University	CGPA: 7.0	August 2021 – June 2024
• HSC. Information Technology	Bharat Madhyamik Junior Collage	PER: 77.23 %	June 2019 – March 2020

Professional Experience

JP TECHNOLOGIES

Dec 2024 – May 2025

Web Development Intern

- Contributed to the **end-to-end development of responsive web applications** using React.js, Bootstrap, HTML5, CSS3, and JavaScript, incorporating interactive UI/UX features with modern animations and effects to enhance user engagement.
- Collaborated remotely with cross-functional teams, including designers and backend developers, to **implement and integrate frontend components**, debug issues, and ensure seamless functionality across devices and browsers.
- Strengthened hands-on expertise in **frontend and backend development**, including working with React.js, optimizing performance, and deploying clean, maintainable code in real-world development environments.

SCHOLAR COMPUTER MKCL EDU.

April 2017 – June 2019

MSCIT Instructor

- Delivered **structured and interactive training sessions** on MS Office Suite (Word, Excel, PowerPoint), Operating Systems (Windows, Linux basics), and foundational IT literacy to **over 200 students**, significantly improving their digital proficiency and confidence in using technology.
- Achieved a **consistent 95%+ certification success rate** by providing **individualized instruction**, regular performance tracking, and hands-on exercises—earning recognition as the **“Best Teacher Employee”** for outstanding teaching effectiveness and student impact.
- Designed, updated, and customized **MKCL-aligned course materials** and digital learning resources, ensuring content remained **technically accurate, accessible**, and reflective of evolving **industry standards** and learner needs.

PROJECTS

FreshCart E-Commerce(React Framework)

- Developed a **responsive e-commerce web application** using **React.js** and **Bootstrap**, featuring dynamic product listings, shopping cart functionality, and a clean, modern UI optimized for mobile and desktop experiences.
- Implemented **component-based architecture** to ensure scalability and maintainability, enhancing user interaction through **state management, routing, and reusable UI components** for a smooth shopping experience.

E-Commerce Website (Vendors)

- Developed a **scalable full-stack e-commerce platform** for vendor management using **JSP, Hibernate, Spring Boot, and MySQL**, enabling product listings, user registration, and secure admin control panels.
- Implemented comprehensive **CRUD operations** across modules (products, users, orders) with proper MVC architecture, enhancing system performance, data integrity, and backend manageability.
- Designed and integrated a **responsive, user-friendly interface** with validation and dynamic content handling, ensuring seamless navigation and functionality across devices.

Home Interior Design

- Designed and developed a **responsive web platform** for showcasing home interior design services using **HTML, CSS, JavaScript, PHP, and MySQL**, enabling users to explore design layouts and make inquiries online.
- Created a visually appealing **UI/UX layout** tailored for marketing purposes, integrating interactive elements, animations, and media to enhance user engagement and brand visibility.
- Built dynamic backend functionality using **PHP and MySQL**, supporting data-driven features such as contact forms, service requests, and admin-side content management.

Skills

- | | |
|-------------------------|---------------|
| • C | • Hibernate |
| • Core Java | • Spring boot |
| • JavaScript | • SQL |
| • HTML / CSS /Bootstrap | • MS Excel |
| • Angular | • React JS |

Certifications

- | | |
|--------------------------------------|---------------|
| • Cyber Security Analyst Certificate | November 2024 |
| • Tally ERP With GST | August 2018 |
